## Annual School Meeting January 14th

Elsewhere in this issue is the notice of the Annual Meeting of the Champion Consolidated S. D. It is to be hoped that every resident of the district will be present. If you have opinions, this meeting is the place for them. As any rate, you owe it to the Board you have elected, and to yourself to come and hear the reports of the manner in which your taxes have been administered. Those in the Champion District have the very important duty of electing a trustee.

Since the School Act of 1931 was passed, an elector of an established district is any person of the full age of twenty-one years, who is and has been a resident thereof for a period of at least one year immediately prior to the date of any school meeting. To be nominated for the office of trustee, a person must be (a) a British subject (b) an elector of the district (c) able to read and write. It may be news to some that a person need not be a ratepayer to enable him to vote or hold the office of trustee.

## O. E. S. Installs New Officers

The Installation Ceremonies of the Champion Chapter of the Eastern Star took place in the Chapter room in the Community Hall before the members, when the following officers were installed in their respective offices:

Worthy Matron—Sister Blanche Dupue, Worthy Patron—Brother John Collins, Associate Matron—Sister Lily Bell, Associate Patron—Guy Volsey, Secretary—Mella Jopling, Treasurer—Christina Williamson, Conductress—Meryl McIntyre, Associate Conductress—Anna Clements, Chaplain—Linda Voisey, Marshal—Alma Hagg, Organist—Laura McLean, Adah—Edna McNaughton, Ruth—Rheta Long, Esther—Helen Jopling, Martha—Augusta McNaughton, Electa—Margaret Manhard, Warder—Nettie Fisher, Sentinel—Rachel Taylor.

Past Worthy Matron, Alma Hagg acted as installing officer and was most ably assisted by Past Worthy Matron Orr, as Marshal and Sister A. Moffatt as Chaplain. Following the installation, Worthy Matron Blanche Dupue in a most charming manner, made the presentation to Past Worthy Matron McLean a past matron's pin; Past Worthy Patron, Geo. Orr was the recipient of a beautiful Masonic and Eastern Star tie pin. Short speeches were given.

After the program a delicious luncheon was served.

## Card of Thanks

Mr. and Mrs. Jack Taylor wish to thank their many friends who came to their assistance during Mrs. Taylor's recent illness.

Have you tried our special Raisin Bread at 5c per loaf? We have Scones and Lemon Buns fresh daily. Also Cakes and Pies, etc., made to order—Champion Bakery.

W. Harris opened up a repair shop on January 6 in the building formerly occupied by Bill Adams' Ford Agency.

## Financial Statement Christmas Concert

The following is the financial statement of the Champion School Christmas Concert:

RECEIPTS  
Women's Institute..... \$10.00  
Proceeds of Concert..... 46.46  
Champion School Board..... 14.00  
Champion Elks..... 15.00  
Total..... \$85.46

EXPENDITURES  
Children's Treat..... \$24.00  
High School Play, including Royalty..... 14.32  
Decorations..... 10.90  
Operetta (Miss Cameron's and Miss Cook's Rooms)..... 11.10  
Drill (Mr. Parrie Room)..... 8.30  
Rent to Community Hall..... 15.00  
Total..... \$83.52

The School Staff wish to take this opportunity of thanking the Women's Institute, the School Board and the Champion Elks for their splendid financial aid. They also wish to express their appreciation of the assistance rendered by many individuals in securing Silling candy bags, loaning furniture and helping with the play. Special thanks is due to Miss Rheta Campbell, who assisted with each item on the program and gave her time generously for practice, and also to Mr. Taylor, who did all the draying free of charge.  
R. L. BAKER

## Local Bonspiel Completed

The local bonspiel was completed on Wednesday evening. Following is a list of the winners:

First Competition: First, H. T. Leman, toilet dishes; second, F. Clever, toilet sets; third, J. S. Collins, pocket knives; fourth, H. Jopling, chocolates.  
Second Competition: First, P. Holm, pipes; second, A. Woodhull, cigarette cases; third, W. McIntyre, chocolates; fourth, B. Hummel, subscriptions to Chronicle.

First Consolation: First, C. McLean, cigarettes; second, P. M. Patterson, cigarette holders.  
Second Consolation: First, Geo. Campbell; second, Frank Clapp.

Good ice was available for all games in the first and second competitions, but due to the dust on Monday the games in the consolation were not completed until Wednesday. Large crowds witnessed some very interesting ends. Much praise is due Rev. P. Dawson for his efficient handling of the draw.

K. R. McLean, R.O., of McLean & Anderson, Sight Specialist of 224-8th Ave West, Calgary, will make his monthly visit to Champion, Friday, Jan. 27th at the Drug Store.

## Champion United Church Rev. Peter Dawson, Minister

Sunday, January 15th.

## HERBERT J. MABER

SOLICITOR, BARRISTER, NOTARY

VULCAN

At U. S. Alexander's office

every Thursday

## Champion Defeats Vulcan 3-2

The Junior Team played their first game last Thursday night on the Vulcan Arena against the Junior Team from that town. The ice was rather heavy but both teams gave a good exhibition of hockey. In the first few minutes of the first period Don Campbell floated a long shot past the Vulcan goalie. In the same period Vulcan got a lucky goal, the puck rolling in a circle and finally finding a corner. At the opening of the second period Vulcan went one up and no more scoring was done during this period. A Latiff received a nasty gash below the eye and had to retire for this period, but came back strong in the third period to register two goals, and that ended the scoring for the game. All the boys played bang up hockey and deserved their win.

Champion line up: H. Taylor goal, W. Anderson, D. Stephenson defense, D. Campbell, A. Latiff, P. Bastin, B. McCullough D. Latiff, H. Russell.  
Watch for date when Vulcan plays here. Come out and give the boys a boost. Barons is also billed to play here in the near future.

## Close Games With Nobleford

A tournament was held by the local Badminton Club on Friday night when the Nobleford club furnished worthy opposition. The games, with the exception of a few, were closely contested. The final result was Nobleford 326 Champion 380. The local club hopes to return the visit to Nobleford in the near future.

THURSDAY, Jan. 12, 1938

**Labor Difficulties  
Reported in Russia**

Labor difficulties in Russia are officially divided in three groups: (1) Low productivity, (2) Migration or flight of labor and (3) absenteeism.

The number of industrial workers and employees at work in 1931 is returned as 18,508,000 persons, of which 5,495,000 are employed in factories and workshops, 2,515,000 on building operations and 1,601,000 on Soviet State Farms and Tractor Stations. Within the last six years 10,000,000 new workers have been given employment in Soviet enterprises.

In spite of this progress the last two years have shown that plans of labor productivity have definitely failed, due to the three above mentioned labor difficulties.

Decrees heralding drastic changes have been issued by the Communist Party, signed by Molotov (the Premier) and Stalin (the Secretary) respectively. The first decree dated December 4, gives the factory directors entire control of supplies for the workers in their charge. The decree provides that all stores, allotments, rabbit farms, pig farms, dairy and poultry farms, fisheries and other enterprises hitherto under the control of workers' co-operatives are to be handed over to the directors of 262 factories, enumerated in an appendix. The illusion hitherto maintained of the independence of Consumers' Co-operatives seems to be shattered completely. On this point the PRAYDA, the 5th, is quite frank. It says: "We are solving in a Bolshevik manner the most difficult problem of Socialism: the ensuring of Labor discipline."

**Workers' Accidents**

During 1932 there was a substantial decrease in accidents among workers in the province, according to the provincial workmen's compensation board. The figure for 1932 is 8,974 compared with 10,050 for the previous year. Greater care and improved methods in industry caused the decrease.

**Shipments of Turkeys**

Something like 4,000,000 lbs. of turkeys were marketed in the province during the past year, according to the provincial poultry commissioner. About 125 carloads were shipped out to eastern and western markets.

While the glass motorcar that is being fashioned for the Chicago World's Fair may never be operated, surely the horn will be blown.

Many book lovers wish their friends would join a Return-a-Book-a-Month Club.

**Lower the Cost of Producing Beef**

There is a cost line running through every animal on your farm

**Get More Out of Feed Crop**

**LOWERS YOUR RENT OR REDUCES FEEDS YOU WANT THEM**

Fully 50,000 farmer owners of Letz Mixed Feed Makers have positively proved that you can lower the cost of producing beef, pork, mutton and dairy products with the Letz System of Home Crop Feeding. Their results show that Letz Mixed Feed Makers will:

1. Save 25% to 30% of present feed crop by utilizing waste.
2. Reduce up to 30% of your present feed crop acreage for cash crops.
3. Increase milk and meat production up to 30% through better feed preparation.
4. Save up to 50% of labor in handling feed crops.
5. Improve health and condition of all farm animals.

Come in the next time you are in town and let us show you how the Letz Mill will solve your feeding problem for you.

**How to Fashion Belts from Package Wrappers**

SMART, colorful, shiny belts, made from the transparent coverings of cigarette, cigar, candy and other packages, are the craze both in New York and Hollywood. The movie folk sometimes making their belts on the lot between shots.

"Cellaphane" has taken its place as a material for the practice of another house art easily acquired in these practical times. It is used, not only for belt making in various woven and braided versions so attractive with sports clothes, but for matching hand bags and hats as well.

Unusual color combinations and patterns are achieved through various methods of weaving the strips. One of

**RICK BACK**

The simplest is the Rick Back, shown in the circle at the left. Cut strips of "Cellaphane" 4 inches long by 3/4 inches wide. Approximately eighty are needed to make the average length belt. Fold outside edges lengthwise to the center twice and then fold in half lengthwise, keeping the raw edges in. This makes a strip 4 inches long and nearly 1/2 inch wide. Fold across the center, making a 2 inch long. Fold each end on top of it. Insert a fifth link, as shown, and continue until desired length is obtained.

"Cellaphane" in plain transparent quality or in colors, for the making of these smart belts, may be secured from the package wrappers now supplied on many household articles or in convenient rolls from any department, stationery or plastic materials are to be had in many

Many belts, when finished, look like mother of pearl and colorful touches of plastic materials are to be had in many

**\$150 Allowance for Your Old Lamp or Lantern ON A NEW Coleman**

Right now your old lamp or lantern... regardless of kind or condition... is good for \$150 at our store on a brand new Coleman. The finest pressure-gas Lamps and Lanterns ever produced.

They light instantly and produce up to 100 candle power of brilliant natural light. New Reco-Type Burners burn continuous, trouble-free lighting service at less expense.

Now—for a limited time you take your choice of any of the newest models... use your old lamp or lantern as part payment on your new Coleman.

## Treeless Prairies Will Soon Be A Thing Of The Past As Result Of Forestry Campaign

Extended stretches of treeless prairie are now the exception in Western Canada. Thirty years ago these were common. Since the Canadian Government instituted a tree-planting division in 1891 under the administration of the Department of the Interior (recently transferred of the work to the Department of Agriculture), a total of 117,225,936 trees have been distributed free to farmers in the Prairie Provinces. Of this total 115,190,070 were deciduous or broad-leaved trees and 2,035,866 were coniferous or evergreen.

Sufficient seedling trees to establish shelter belts have been sent out from the Canadian Government Forestry Stations at Indian Head and Subsidized, Saskatchewan, to as many as 6,000 farmers every year for the past thirty years, or an average of about 4,000,000 trees per year. In addition to the free distribution, millions of trees have been sold in the Prairie Provinces—Manitoba, Saskatchewan and Alberta—in the form of private farm homes, which form a sturdy stood out on a somewhat bare and unrelieved landscape, are now shrouded by gliding, leafy trees, which not only serve as windbreaks, but help to conserve the moisture and make a decided contribution to the beautification of the surroundings. The trees that are the most popular among farmers in Western Canada are Caragana or Serbian pea, Manitoba maple, ash, poplar and willow. The "treeless prairie" passed into the limbo with many other things about the close of the nineteenth century.

### The Holiday Massacre

Appalling Number Of Fatal Accidents On English Roads During Summer

During July and August an average of 17 people were reported killed on the roads of England and Wales. Of the 1,017 accidents responsible for their deaths, less than two per cent. were unavoidable. As in over 85 per cent. it was the man and not the machine that failed. Four hundred and fifty-three of those killed were pedestrians, 446 pedestrians and 183 pedal cyclists. In the list of vehicles involved motor cars came next, motorcycles a good second, then motor vans and lorries, closely followed by bicycles. Seventy per cent. of the deaths occurred in towns and built-up areas (a fifth of them in Greater London). Half of the motor drivers involved had over five years' driving experience, but two-thirds of them were between 15 and 29. Twice as many boys were killed as girls. The most dangerous age for children is between four and five; but almost all the children between 15 and 16 were killed while cycling. These grim data are taken from the National Safety First Association's interim report on road accidents during the holiday months—London Spectator.

### Dominion Seed Branch

Effective Work Carried On For Benefit Of The Agriculturist

The Dominion Seed Branch encourages the production of superior seeds for domestic requirements and export; performs field inspection of seed crops for registration, and for certification as to purity of variety and quality; grades all field seeds offered for sale on the basis of control samples or of official samples drawn by inspectors; maintains laboratories for the analysis of seeds, feeding stuffs, fertilizers, hatter twines, insecticides and fungicides; supplies markets information and develops the marketing of these products, and of hay and straw which are graded on request under the Seeds Act, Feeding Stuffs Act, Fertilizers Act, Insecticide and Fungicide Act, and for the enforcement of the Seeds Act. The branch organization includes four main divisions, and for the enforcement of the Seeds Act. Canada is divided into seven inspection districts each supported by a service laboratory.

### Means What It Says

"Until death do us part" means something when Prince Edward Islanders stand before the altar. There was not one divorce action in the province during 1932, and only two divorces have been recorded since confederation.

A camera for aeroplane panorama photography registers 270 square miles.

W. N. U. 1979

## AMY'S WONDERFUL WELCOME AT CROYDON

It must be a hard job for press photographers to keep track of Amy Johnson Mollison, considered to be one of the finest aviators in the British Empire. One day she is in Cape Town, and again in London. Here we see her receiving a wonderful welcome at Croydon, London, at the completion of the round trip to Cape Town and back in record time. With Mrs. Mollison is her husband, Captain Mollison, who also holds several records for flying. In the background between the happy couple is Sir Malcolm Campbell, holder of the world's land record for automobiles.

### Turnips Are Popular

Canadian Product Is Favored In Markets Of United States

"Imported" turnips are becoming popular in U.S. markets, according to statistics which have been issued by the Canadian National Railways concerning Canadian turnips. "By such humble instruments as the turnip, Canada's foreign export trade is being advanced," states the agricultural department of the railroad. "Because of its tender quality, the Canadian turnip has been finding sudden favor in markets in the United States as widespread as from New England to Florida and as far west as Texas. During the past year the Canadian National Railways shipped no less than 2,000 carloads or about 1,200,000 bushels of turnips to points in the United States. Refrigerator cars are used exclusively in handling the traffic. These turnips all come from farms in Eastern Ontario and Prince Edward Island, the entire crop of the latter province being sold to the New England and New York markets."

### A Famous School

Law School At Dalhousie Produced Three Prime Ministers

The law school at Dalhousie consists of only about one small dark room, with ancient desks on which are carved initials of many of Canada's illustrious men. Around the walls are hanging pictures of the graduating classes. One can pick out no less than three Canadian prime ministers, Sir John Thompson, Sir Robert Borden and Mr. Bennett. Many names are to be found of men who have made their mark in the legal profession, on the bench, in politics and in business across Canada—London Free Press.

White: "Your wife used to be so nervous. Now she seems quite calm." Green: "She is. The doctor told her nervousness was a sign of old age."

PASSENGER: "We can't sit here all day, driver! What are we going to do?" DRIVER (fed up): "Well, 'ow about making a nice snowman?"—The Humorous London.

## Much Annoyance Is Caused By Heavy Exchange Rates Against Canadian Dollar In U. S.

### The Wheat Kings

Canada Has Won Highest Award In Wheat Eighteen Times

Since the contest for the world's wheat championship was inaugurated in 1911, Canada has won the highest award eighteen times. At the last international grain and Hay Show held at Chicago from November 26 to December 3, 1932, inclusive, 80 of the 85 awards for hard red spring wheat went to Canadian competitors. In clutching the championship won by Herman Treile of Wembley, Peace River, Alberta. The winners of the championship in the past twenty-two years are as follows:—

- 1911—Seager Wheeler, Saskatchewan.
- 1912—Henry Holmes, Alberta.
- 1913—Paul Gerlach, Saskatchewan.
- 1914—Seager Wheeler, Saskatchewan.
- 1915—Seager Wheeler, Saskatchewan.
- 1916—Seager Wheeler, Saskatchewan.
- 1917—Sam Larceme, Manitoba.
- 1918—Seager Wheeler, Saskatchewan.
- 1919—J. C. Mitchell, Saskatchewan.
- 1920—J. C. Mitchell, Saskatchewan.
- 1921—G. W. Kraft, Montana, U.S.A.
- 1922—R. O. Wyler, Saskatchewan.
- 1923—Major H. G. L. Strang, Alberta.
- 1924—J. C. Mitchell, Saskatchewan.
- 1925—J. P. Yates, Montana, U.S.A.
- 1926—Herman Treile, Alberta.
- 1927—C. Edson Smith, Montana, U.S.A.
- 1928—C. Edson Smith, Montana, U.S.A.
- 1929—J. H. B. Smith, Alberta.
- 1930—Herman Treile, Alberta.
- 1931—Herman Treile, Alberta.
- 1932—Herman Treile, Alberta.

### Russia Issues New Order

Housewives Under 50 Deprived Of Bread and Sugar

On the eve of the end of the five-year plan Russian housewives under 50 learned that beginning with the first of this year they would be deprived of bread and sugar, of which they receive small rations. This action, reflecting the great shortage in Russia, is an extension of the government's "no work—no food" policy and apparently is designed to inject more women into industrial occupations with the view to ultimate abolition of the home as the unit of family life.

At the height of the campaign which has been waged for several years to draw more women into industry a census of Moscow showed there were approximately 109,000 housewives in the city at the end of 1931. At that time it was estimated that the number would be reduced by half at the end of this year. Eighteen per cent. of the 100,000 were over 60.

### Grow Oats In China

Canadian Oats Introduced By Missionary May Help To Supplement Rice

Canadian oats have been acclimated to conditions in western China and are being distributed in quantity from West China Agricultural University, Chengtu, a missionary institution, to government experimental farms and to the salt tribes in Szechwan province for 1933 sowing.

The original supply was brought across from Canada eight years ago by Rev. Frank Dickinson, B.A., M.Sc., a Canadian missionary, and tended by him in plot and field every year since.

In the Chengtu plain the staple diet is rice and in the hill country the tribes rely mainly on Indian corn. In this condition it is considered that the introduction of oats will add ultimately an important article to the diet of large numbers of people. The experiment has not yet reached the commercial stage, but will be watched with interest.

### Urges Music Study

Study of music in the schools, not with a view to a professional singing career but as a valuable adjunct to general education or in any other lines of business endeavour, was recommended in Toronto by Edward Johnson, native of Guelph, Ont., and distinguished tenor of the New York Metropolitan Opera Company.

Canadians are both annoyed and mystified by the treatment their dollars receive in the United States. They know that conditions across the line are much worse than in the Dominion. Also, they are aware that, while banks in the Republic have been collapsing for some time, there is not even a whisper against these institutions in their own country. Of course, the people of Canada realize that this condition is brought about by mysterious agencies such as exchanges and the balance of trade, but these explanations do not satisfy. This question is dealt with sympathetically by the Saginaw (Michigan) News in the following editorial comment:

Canada does not understand but does resent the continuing fall of the Canadian dollar on the New York money market. Apparently it is a sympathetic reaction to the drop in the British pound sterling, accompanied by the war-debt mess. As a matter of fact, though, the Canadian financial system has nothing to do with the British system of which it is entirely independent. And Canada has no foreign war job. It bore the entire heavy cost of participation in the war through internal loans and internal financing, as it owes no other country anything.

A Canadian \$2,000,000 internal loan was over-subscribed; its Canadian obligation has been defaulted in the United States; Canada has maintained its export trade at a higher percentage than any other country that had no bank failures all through the depression; no disorders; no defaulted government bonds; no demand of security for private investment; but it finds its dollar value depreciated in the circumstances it is not to be wondered at that Canadians are puzzled over the problem.

It is an issue which should interest this country because one effect of the decline is further to discourage Canadian buying in the United States. And Canada hitherto has been a very good customer.

It is the Michigan paper dwells upon the discouragement of Canada buying in the United States, and admits that "Canada hitherto has been a very good customer." After all, apart from being a cause of annoyance, this discount on the Canadian dollar does not seem to affect the individual Canadian. If he stays at home, true, it has checked his buying of United States goods, and stopped many little excursions over the border, but this country is not the loser by that condition—Toronto Globe.

### Another Unidentified Bird Band

Canadian Wild Geese Is Shot In Princeton, Ill.

Recently the National Parks of Canada, Department of the Interior, received a report stating that a wild goose wearing a band of pink celluloid inscribed "Canada" was killed near Princeton, Illinois. Anyone knowing anything about the placing of the band is requested to advise the Department of the Interior at Ottawa so that the record for this bird may be completed. The National United States Government co-operate in banding investigations and in this way much new and valuable scientific data concerning the migration, and of breeding and wintering grounds of birds is being obtained. The use of other official bands is not encouraged because unofficial bands have a tendency to confuse the Official Records. Information about the free distribution of official bands may be had upon application to the Commissioner of National Parks, Department of the Interior, Ottawa, Canada.

### Stream Flow In The Middle West

In southern Alberta, following average to above average run-off in May and June, the flow of the river has continued below normal, averaging only from 60 to 70 per cent. of the average monthly flows from July to October inclusive. The run-off is a record of the Dominion Water Power and Hydroelectric Bureau of the Department of the Interior. In southern Saskatchewan the run-off has been even less and the summer flow, from May to October, inclusive, has had a monthly average only 35 to 55 per cent. of normal.

Whales are to be caught by electrically which will start them and cause them to rise to the water's surface, in the White Sea, Russia.

France has been seeking ways for government support of the wheat market.

Coal production in Germany is increasing.

## Great Slave Lake

Second Largest Lake Lying Entirely  
In Canadian Territory

Lying in the district of Mackenzie in the North West Territories is Great Slave Lake with an area of 11,710 square miles. It is the second largest lake lying wholly within Canadian territory, being exceeded in size only by Great Bear Lake. It is the great northern inland waterway system which extends to the Arctic Ocean. Mackenzie River which flows into Great Slave Lake has a length to its headwaters of over 2,200 miles and is ranked with the great rivers of the world. It is navigable for a great part of this distance with only one break at the rapids on Slave River at Fort Smith. The elevation of Great Slave Lake is 400 feet above sea level and the Mackenzie River in its course to the Arctic has a fall of that amount, this fall being in the main fairly uniform. The Topographical Survey, Department of the Interior, Ottawa, has just issued a reprint of the map of the eastern end of Great Slave Lake and including the Northern arm. This arm of the lake is largely full of islands and peninsulas and extends to the mouth of Fort Reliance at the mouth of Lockhart River. Several navigable channels are in use and there are shown. This map is one of a series showing the Mackenzie River Navigation channels. They are printed on scales of four and six miles to an inch and include the water route from Fort Smith to the Arctic besides several other localities not on the direct navigation route. A list of the maps available and their prices may be obtained from the Department of the Interior, Ottawa.

## CHAPTER IV.—Continued.

She checked the plan. She could not bring herself to put Alan in so fearful a dilemma. Looking up, she met his gaze squarely again. "No, I can't ask that of you. I'd never ask that."

He chose his words very carefully. "The question with me, Joyce, is this: How deeply is your father involved? I can't think he'd go the whole length with these bandits. I can't think he'd countenance murder or even so brazen a robbery as these men staged. Perhaps they deluded him about their intentions. If they're caught, they're going to die and throw as much of the blame on him as they can. But if I can have the truth as a working basis, I can nail their lies. We can't hope to save him from a penalty, but we maybe can save him from the worst."

Joyce blanched at the last word, at the spectre it aroused. Her father stood charged with murder. In her heart the Law suddenly became a tangible and fearsome thing.

Alan went on: "You stand a better chance of getting the truth from him than I do, Joyce. He'd suspect me if I tried to talk to him. But with you he'd be more frank and open. When he comes in, won't you try to find out what he can?"

"You mean I'm to watch him and gather what hints I can, and perhaps ask questions that seem innocent?"

"That's exactly it, Joyce. Exactly what I meant. If you'll do that for me, if you'll help me that much . . . Joyce, don't you see why I told you this? Don't you see it because I'm going to stick with you? I won't see your dad railroaded. I'll help him to the limit I can—because he's your father."

He was facing her in the ghostly morning light. Again he was conscious that his four months of absence, breaking the friendship between them, had inveterately bred an aura of strangeness to him; and that all during this brief truce of his life he had become aware of her in a new way. How brave and comely a girl! And in spite of her hard life here, in spite of her efforts to be a good husband's wife, a good mother and a good friend, she was so girlish and adorable as was!

Unwilling to detain him, Joyce offered him her hand, wishing him success today, hiding her fears for him when he should come up with these men. Alan bent nearer to her, he bent down a little to kiss her, as much then as he had done in the years past. It was an impulsive act; he was swept by admiration of her bravery, of her girlish prettiness. And it was a human act of affection, too, and self-reproach; for he

## TIRED AND IRRITABLE?

Take Lydia E. Pinkham's  
Vegetable Compound

It steadies the nerves and helps to build you up. You will be better . . . sleep better . . . look better. Life will seem worth living again. Remember he had done it for 100 women say. "It helps me." Let it help you. Too liquid or tablet form as you prefer.

W. N. U. 1076

## HER FAT WAS A BURDEN

Now She Is Quite Slender

Here is another case where the trim figure of youth has displaced the corpulent, fat outline of middle-age. It is a housekeeper writing. She says:—"I cannot say what weight I was, but I was very fat—a burden to myself. I have taken three bottles of Kruschen Salt and now I am quite slender. I am 34, turned and people take me for 40. I am more than proud of myself. You can take from me that every word of this is true. I took a teaspoonful in hot water every morning till I used three bottles. Now I take only half a teaspoonful each morning. I cannot recommend the Kruschen Salt enough, for they are worth their weight in gold."—(Mrs.) A. H.

For generations, wealthy overweight people have been visiting those European Spas whose waters are recognized for their reducing effect. It is called "taking the cure." Now the formula of Kruschen represents the excellent salts of the mineral waters from those far-famed Spas. They contain the essential salts of fat by assisting the internal organs to perform their functions properly—by throwing off each day the waste products and poisons which, if allowed to accumulate, are converted by the body's chemistry into fat tissue.

her! Up to h—l with rocks and mud bars now!"

His last words were drowned in the engine's roar as Peabody opened the launch. With the wind stinging his eyes and the spray lashing him, Alan advanced the motor to keep from being flung bodily overboard, and gave Peabody what help he could.

The craft careened around the last bend, a scant mile from the great Y of the Alouka. A clear open stretch lay in front. Dashing the blinding spray from his eyes, Alan rose precariously to his feet, looked ahead; and his heart sank as the truth was borne in upon him.

Those canoes had beaten him to the Forks.

It was maddening, his defeat—doubly maddening for its closeness to a smashing triumph. He had come within five minutes of overthrowing them in the launch, and then had missed, had missed by a mile that loomed gigantic as two hundred.

They had beaten him. They had heard the thundering boat, had flung their whole strength into the race, and now were whipping on eastward along one or other of the Alouka branches.

The launch would have to be abandoned at the Forks. He knew the police boat would be stranded or wrecked within half a mile if it attempted to go up either of those shallow streams. He would have to take to paddle canoes and split his party.

Unbested, he planned swiftly. The chances were ten to one that the bandits had darted up the left branch leading northeast into the Thal-Az. He decided quickly: "I'll follow that left branch. I'll take my gun, he's a red-haired devil in a fight, he's our best shot, he'll be dependable in whatever comes. But the third man—He's making tracks! He's a man, both experienced veterans of a many a patrol."

He made up his mind: "I'll end the right branch with MacGoon and Whipple. Bill and Larry and I'll short up the left. We'll be the ones to do the business."

As the great Y of the Alouka loomed up, he turned and gestured to Harold and Larry. Silently understanding, they crept back to the stern, unobscured the canoes and had them ready by the time Peabody, slowing down the launch, steered it in between two little wharf islands at the Forks and stopped.

Alan ordered him: "Ped, take these two men and whip up the south branch. Larry and Harold will follow me. If you sight them, don't pitch into that pack. You'd be fighting six men single-handed. If they do happen to go that way, you step back here to the Forks and wait for us. We'll be able to track them in that timber country. Let's pile off."

Bill snarled: "He's a mile and a half away."

"Shutup!" Alan snapped. "General orders, not mine. Every d—n thing you say or do will be tattled to him." He tossed the launch anchor into the mud. "I said pile out. Let's be moving." He stepped down a canoe, stood a moment between his knees, caught up a paddle.

Cursing beneath their breath, Bill and Larry clambered in with him. The two canoes started.

(To Be Continued.)

China's 1932 rice crop was the largest in several years.

## Get Rid of That SORE THROAT!

Any little soreness in the throat goes rapidly where neglected. Crush some tablets of Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Aspirin relieves neuritis, meningitis, too. Use it freely; it does not hurt the heart.

## ASPIRIN

TRADE MARK REG. IN CANADA

Little Helps For This Week

"Bear ye one another's burdens and so fulfill the law of Christ."—Galatians 6:2.

There are those who take what they can get. When poor around for money, they save and stint, and dwell on behind a miser's door.

There are those who give with generous hearts. They are at hand, and ready to give all more; they seek and aid the poor and low, find welcome at their door.

However perplexed you may at any hour become about some question of duty, one refuge and resource is always at hand; you can do something for someone besides yourself. When your own burden is heaviest, you can always lighten a little some other burden. Let this thought then stay with you; there may be times when you cannot find help, but there is no time when you cannot give help.—George S. Merriam.

## Canada's Fish Production

Saskatchewan and Yukon Kept Record In 1931

During 1931 fish production in Canada showed a decrease in every province except in the Yukon and Saskatchewan. On December 20, 1932, there had been an increase in domestic fishing licenses to the extent of 348 over the corresponding period of the previous year. The natural resources department is continuing its work of stocking certain of the more suitable lakes of Saskatchewan with angling species of fish. During the season seven lakes chiefly in the Cypress Hills region, were stocked with trout; 25,435,508 fish and fish fry were distributed during the year.

## New Metal Discovered

Feather-Weight Substance May Displace Use of Aluminum

Scientists believe that in beryllium, a feather-weight metal which is stronger than steel, they have discovered a substance which will displace aluminum in many branches of industry.

Intensive experiments are now being conducted by the Institute of Metals to test its usefulness.

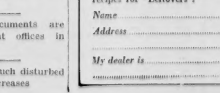

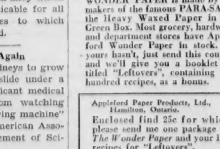

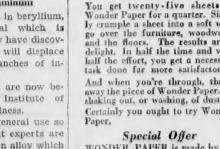

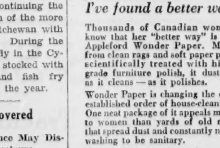

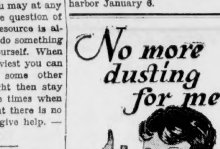

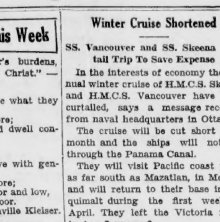

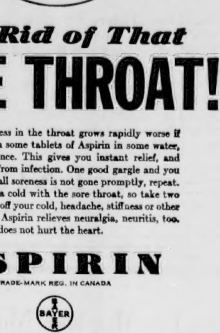

The objection to its general use so far is its brittleness, but experts are trying to blend it into an alloy which will make it use practicable for all the commercial purposes to which aluminum is now applied.

## Science Scores Again

Success in causing lightning to grow artificially on a glass slide under a microscope and a significant medical discovery resulting from watching the "wheels" of this "living machine" were reported to the American Association for the Advancement of Science at Atlantic City.

About 1,500,000 documents are stamped in government offices in London every day.

French industry is much distressed over threatened tax increases.

WORLD HAPPENINGS  
BRIEFLY TOLD

The Free State Department of Education estimates it will take 20 years to make the Free State bilingual to the same extent as Canada.

A Royal Canadian Mounted Police training station is to be established in Halifax. About 25 men a month will be graduated at Wellington barracks.

The hottest day in two summers was recorded at Buenos Aires, when the temperature reached 101.5 degrees Fahrenheit, on December 31. One case of sunstroke occurred.

The ending of Soviet Russia's first five-year plan and the beginning of the second plan have been announced at Moscow, Russia, by the Soviet press.

The Ontario Government has placed a band of elk on a 385-acre reserve near Peterborough, with the intention of ultimately stocking the forests with them.

Dr. W. W. Yen, head of the Chinese delegation to the League of Nations during the past year, was appointed ambassador to Russia by the Nationalist government.

Another of the problems that bother Mid folk has been solved. The first cheque ever written in "Braille" has been cashed by the Bank of Manhattan Company at New York.

A collection of portraits of members of all the royal families of Europe is to be left to the British Museum. It has been purchased from Thomas Brookbank, now more than 80 years old.

A bronze bust of Bill Carson, the poet, whose ashes lie in Forest Hill cemetery in Fredericton, has arrived from British Columbia and will be placed in the library of the University of New Brunswick.

## Eyes and Nervous Strain

Trying To See In Bad Light Causes

Waste Of Energy  
Your whole body wastes energy when your eyes are strained by trying to see in bad light, reported Doctor M. Luckless and Frank Moss at a session of the American Association for the advancement of science. Nervous muscular tension of a man reading a book increases or decreases in direct proportion to the amount of light falling on the book.

A possible aid to study of cancer, discovery of the organism that apparently plays a leading part in producing cancer in plants was described by Dr. Michael Levine, of Montefiore Hospital, New York.

The organism he has isolated seems to be what causes cells of a plant to multiply rapidly and produce a tumour. Human cancer results from a similar abnormality fast growth of cells, but the organism that causes it is not known.

Study of how the organism works, said Dr. Levine, may throw some light on the cancer problem in general.

## Unusual Law Suits

Judge In Scotland Puzzled Over Case About Bees

Because a swarm of bees alighted on the land of Henry Gow, of Dunfermline, Scotland, Peter Coutts has twice sued Gow. The first time he asked Coutts for the value of the bees. At the end of the honey season he demanded the price of honey which he said he would have had if Gow had sent the buzzers home. Gow claims that in their first season in a new home bees do not produce honey so that he really is out the cost of feeding them. The puzzled judge postponed the case to think it over.

## Perfect Book Is Short

Opinion Given By Prince George In Address At London

Prince George functioned as a book-critic for a few moments when he addressed the Incorporated Society of Authors, Playwrights, and Composers at London recently, and formulated his ideal of the perfect book.

"I think," he said, "most people feel that books should be short. Most of us have only odd moments to read, and we want information or entertainment in a form that we can grip as quickly as possible."

## Idea Did Not Work

Stewards on the "Empress of Britain" had arranged to get George Bernard Shaw's signature to sell to autograph seekers. When one purchases drinks in the cabin, the steward signs a bill. The stewards intended to pay for the drinks themselves and keep the bill—until they discovered Shaw was a teetotaler.

W. N. U. 1976

## THE PRINCE PURCHASES SPEEDIER CRAFT FOR HIS JAUNTS

Our picture shows the Prince of Wales in the usual informal dress in which he makes his flights, while in the background is a photo of the new "Foxmouth" he has purchased for his private use. The machine is fitted with a 130 h.p. Gipsy Major engine, has a continuous cruising speed of 310 miles an hour. It is a similar type of machine to that which won the King's Cup Race around Britain last July. Painted in royal blue and dark red, colours of the Household Brigade, the machine is reported to be the acme of perfection.

## Business For Coast Province

B.C. Likely To Increase Apple and

Lumber Exports To Britain

British Columbia should reap important benefits from the new trade agreement between Canada and Germany. Provincial plants should obtain a share of the \$10,000,000 increased market for wood pulp with Germany during the coming year to 152,000,000 feet. This compares with \$7,000,000 feet shipped during the past year, a gain of more than 70 per cent, or treble that shipped in 1931, when 50,000,000 feet created a record.

British Columbia may increase her lumber exports to the United Kingdom during the coming year to 152,000,000 feet. This compares with \$7,000,000 feet shipped during the past year, a gain of more than 70 per cent, or treble that shipped in 1931, when 50,000,000 feet created a record.

SCHOOL WEAR THAT IS CHIC

AND SO LOVELY WITHOUT

A COAT

A lovely sheer woven in brown

tricot material, belted at the waist

is so popular, is chosen by the

smart junior for her coat-like

charm. The trim is plain or as

are the buttons and belt buckle.

And it needs no telling how

simple it is to fashion it. The small

coat is really amazing.

Style No. 989 is designed for sizes

8, 10, 12 and 14 years. Size 8 re-

quires 2 1/2 yards of 36-inch material

with 1/2 yard of 36-inch contrasting.

Price of pattern 20 cents in stamps

or coin (coin is preferred). Wrap coin

carefully.

## Recipes For This Week

(By Betty Barclay)

## LEMON MINCEMAST

4 lemons.

2 apples.

1 pound currants.

1/2 cup raisins.

1/2 cup chopped nuts.

1/2 cup melted butter.

2 cups sugar.

1 teaspoon salt.

1 teaspoon ground cinnamon.

2 teaspoons ground nutmeg.

1 teaspoon ground cloves.

1 teaspoon ground ginger.

1 teaspoon ground allspice.

Squeeze juice from lemons and cook

peel until soft. Put through meat

chopper and then rub through a

strainer. Add chopped apples and re-

maining ingredients, mix well and

store in jars. Use as a filling for

turnovers and pies.

## SHREDDED WHEAT CREOLE

6 shredded wheat biscuits.

5 cups hot meat stock.

2 tablespoons bacon fat.

2 tablespoons minced onion.

2 eggs.

Salt and pepper.

2 tablespoons tomato catsup.

2 tablespoons minced green pep-

per.

Crumble shredded wheat biscuits

and cook until thick in boiling

stock. Mix with bacon fat, onion, pep-

per, beaten egg yolks, seasoning, and

catsup. Fold in stiffly beaten egg

whites. Turn into a buttered baking

dish and bake 45 minutes in a moder-

ate oven (375 degrees Fahrenheit). Serve

hot with grilled tomatoes, 6

portions.

Potash in commercial quantities is

being recovered from the Dead Sea.

## Tax Refunds

U.S. Government Refunds Hoge

Amounts On Income Tax

That very pleasant feeling you get

when you find you have been over-

charged and get some of your money

back has come to thousands of indi-

viduals and business houses.

The United States government re-

paid \$80,583,564 last year, all be-

cause taxpayers, through some error,

paid too much money in tax or in

previous years.

Several refunds amounted to more

than \$100,000. The United Fruit

Company of Boston got \$2,950,000,

the largest. The sum of \$2,189,000

was returned to the Lehigh and

Wilkes Barre Coal Company of Penn-

sylvania.

Douglas Fairbanks, movie star, had

\$21,300 returned, and Roman Novarro

got back \$7,604.

## Measure Nature's "Jitters"

Scientists Learn How Water Makes

Steam, Or Cool Heat

Measuring old Mother Nature's

"jitters," a trillion times worse than

the worst stage fright, is science's

latest way of learning how water

makes steam, or cool makes heat.

It's done by measuring the energy

in a single "jitter" or vibration of

a molecule, which was described be-

fore the American Association for the

Advancement of Science. If the jitters

get strong enough, the molecu-

les' atoms will fly apart and com-

bine again in a different formation,

which is what happens when fuel

burns or liquid turns into a gas.

English berringers held a convention

in London recently.

France produced 492,410,000 gal-

lons of wine in 1928.

Strong Annual Statement  
by Royal Bank of Canada

Total Assets Stand at \$765,512,920.—Of This Amount Liquid Assets are \$355,929,912, Equal to 52.86% of Liabilities to the Public.—Included Therein are Cash Holdings of \$164,630,724, Being Over 24% of Public Liabilities—Savings Deposits Well Maintained.

The annual statement just issued to shareholders of The Royal Bank of Canada supplies further striking evidence of the satisfactory manner in which leading Canadian financial institutions have passed through the unsettled conditions of the past year. Every part of the statement reflects the strength of the bank's position. Current industrial and trading activity is reflected in lower commercial loans, and an increase in liquid assets. The latter show a marked increase over the previous year, and are now equal to 52.86% of its liabilities to the public. Included in them are cash holdings which alone aggregate over 24% of public liabilities. Savings deposits have been well maintained through the unsettled conditions of the past year. Every part of the statement reflects the strength of the bank's position. Current industrial and trading activity is reflected in lower commercial loans, and an increase in liquid assets. The latter show a marked increase over the previous year, and are now equal to 52.86% of its liabilities to the public. Included in them are cash holdings which alone aggregate over 24% of public liabilities. Savings deposits have been well maintained through the unsettled conditions of the past year. Every part of the statement reflects the strength of the bank's position. Current industrial and trading activity is reflected in lower commercial loans, and an increase in liquid assets. The latter show a marked increase over the previous year, and are now equal to 52.86% of its liabilities to the public. Included in them are cash holdings which alone aggregate over 24% of public liabilities. Savings deposits have been well maintained through the unsettled conditions of the past year. Every part of the statement reflects the strength of the bank's position. Current industrial and trading activity is reflected in lower commercial loans, and an increase in liquid assets. The latter show a marked increase over the previous year, and are now equal to 52.86% of its liabilities to the public. Included in them are cash holdings which alone aggregate over 24% of public liabilities. Savings deposits have been well maintained through the unsettled conditions of the past year. ## DEMAND VOICED BY MULCAHY FOR UNITED IRELAND

Dublin, Irish Free State.—Political circles were astounded when Richard Mulcahy, former minister of defence and first bench member of William T. Cosgrave's Cumann na nGaedheal, voted a demand for immediate union of the Free State and Northern Ireland.

The only alternative to union, Mr. Mulcahy said, was "a 26-country republic and endless ill-will."

In a fiery election address he blamed Great Britain for partition of Ireland and denounced the oath of allegiance to the king.

Partisans expressed the fear his stand might split the ranks of Mr. Cosgrave's party and give added strength to President Cosgrave and the Free State's republican forces in the whirlwind campaign preceding January 24, polling day.

"Too much respect for British sentiment," Mr. Mulcahy said, "has helped make the 1921 treaty (under which the Free State was constituted) unworkable by including in it the oath of allegiance and by a long struggle to keep up antiquated legalisms like the privy council."

"The only alternative to a 26-country republic and endless ill-will is union of Ireland."

He declared his belief a new treaty something out of politics in the relations between the United Kingdom and the Free State is the only basis on which a lasting settlement of difference between the two countries is possible.

He urged withdrawal of Nationalist members from the parliament of Northern Ireland and opening of an office in London to conduct propaganda seeking to force the North into the Free State.

Mr. Cosgrave issued a vigorous denial today that his party was receiving financial assistance from the United Kingdom in its effort to win the election.

The Cumann na nGaedheal leader's statement was prompted by an article in the *Pianna Fail* (Republican) newspaper that "British is intriguing to get Mr. Cosgrave back into power."

Mr. de Valera opened his campaign tonight on College Green by telling 20,000 persons the bill revoking the oath of allegiance to the king would become law despite the sense if the government is returned to power.

## Gels Temporary Credit

Calgary Obtains Funds To Carry On In Financial Crisis

Calgary, Alberta.—Guarantee of temporary credit to maintain city services was obtained by the city of Calgary from the Bank of Montreal and negotiations were well advanced towards establishing a definite credit at the bank to aid the city in its financial crisis.

Statements by Mayor Andy Davidson and H. C. Francis, local manager of the Bank of Montreal, made it clear the bank was providing only sufficient funds to meet the mounting obligations of the city. Negotiations, however, had reached such a stage that hope of ending the impasse regarding the definite amount of credit was high.

## Many Staking Claims

Hundreds Seeking Wealth In Manitoba's New Mineral Fields

Winnipeg, Man.—Manitoba's new mineral fields, God's Lake and Jordan Lake, 250 miles northeast of Winnipeg, where hundreds of prospectors seek wealth this winter, has attracted attention.

Two thousand claims have been staked in the two mineral areas and the rush to record these has swamped the Manitoba mines branch office. It has been announced a renewal would be made immediately and the tangle straightened out.

## Prof. Picard Sails

Have, France.—Prof. Auguste Picard, explorer of the atmosphere, has sailed for Canada and the United States. After a lecture tour he is expected to investigate possibilities of a flight to the stratosphere from Hudson Bay region.

Canadian Air In England  
Ottawa, Ont.—Canadian water color will be exhibited in at least 12 of the largest cities in Great Britain in the next year and a half, officials of the National Gallery stated recently.

W. N. U. 1976

## Cancel Interest On Farm Loans

Saskatchewan Taking Measures To Lift Burden From Farmers

Regina, Sask.—Official announcement was made by Premier J. T. M. Anderson, in a province-wide radio broadcast that the government will cancel the interest on the loans to cancel one year's interest on all Saskatchewan farm loans in the province. The period is from November 1, 1931, to November 1, 1932.

Those who have paid their interest for the period mentioned will be credited with the payment on their principal.

All arrears of interest prior to November 1, 1931, will be amortized and made payable over a period of five years.

It has also been decided by the government to seek sanction of the legislature to amortize other charges and arrears of principal as of November 1, 1932, over a period of 30 years, the first payment to be made November 1, 1932, with interest chargeable on the amount amortized at six and a half per cent, the rate now fixed by the legislature.

A reduction of one and a half per cent on amortized interest is being made by the government. The amount involved in the interest amortization in the five-year plan is approximately \$1,375,717, while the amount of arrears and principal charges being amortized over 10 years is \$974,578.38.

General action by commercial lending institutions along the lines of extension of interest arrears and postponement of principal payments was foreseen by the premier.

## Unemployment Insurance

Ontario Government Views Proposal With Sympathy

Toronto, Ont.—The Ontario government views the proposal of general unemployment insurance with sympathy and will seek to have it in operation at the earliest possible moment, Premier George S. Henry told a delegation of the Ontario executive of the trades and labor congress.

The delegation was accompanied by Tom Moore to Ottawa, president of the Trades and Labor Congress of Canada, and a request that the Ontario Government lead in advocating unemployment insurance at the forthcoming Dominion-Provincial Conference in Ottawa was the feature of the proposals advocated by the delegation.

Another request that Labor be represented at the conference, was a matter for the Dominion Government, Mr. Henry said.

Other requests were: Amendments to the Liquor Control Act providing for beer-by-the-glass.

## Romanoff Treasures

Famous Russian Collection Is Shown In New York

New York.—Treasures from the Romanoff family—\$15,000 jeweled Easter eggs, a "quill pen" fashioned of gold diamonds, emeralds and 2,300 pearls, lavish dinner services and some 400 years old were placed on exhibit in a Fifth Avenue department store.

They formed a \$1,000,000 collection acquired by the three Hammer brothers, Armand, Victor and Harry, during the nine years they operated various concessions under the Soviet government, including a monopoly on pencils and stationery. By selling their American automobile factory there to the Soviets they won permission to take the treasures out of the country.

## Would Reduce Dollar Value

Senator Borah Wants U.S. To Go Off Gold Standard

Washington.—Senator W. E. Borah is preparing a bill to make the United States dollar less by its enactment he hopes to help the farmers and improve economic conditions generally.

"Thirty-two nations have gone off the gold standard and we are still on it," Borah said. "That has practically destroyed the hope of our farmers to get a real price for their products. How are you going to remedy that until you remedy the money situation?"

## Submerged Continent

Calcutta, India.—An expedition to search for traces of a submerged continent that once may have linked the Indian and African continents for ages next August, under command of Colonel R. B. Seymour Swell, director of zoological survey in India.

## Study Wheat Situation

Groups Being Organized In Saskatchewan For This Purpose

Prince Albert, Sask.—After being addressed by C. H. Puckering, who spoke on behalf of the Regina World Grain Show, the local board of trade decided to form a group which will make a study of the wheat situation and prepare recommendations as to how it is believed the ill of the industry can best be cured. Thirty such groups have now been organized in Saskatchewan.

Mr. Puckering expressed the belief it is up to Saskatchewan to improve conditions by organizing upon similar lines, the purpose being to formulate plans for action which will be considered at the conference to be held in conjunction with the grain exhibition in the capital city next year. Mr. Puckering expressed the belief it is up to Saskatchewan to improve conditions by organizing upon similar lines, the purpose being to formulate plans for action which will be considered at the conference to be held in conjunction with the grain exhibition in the capital city next year. Mr. Puckering expressed the belief it is up to Saskatchewan to improve conditions by organizing upon similar lines, the purpose being to formulate plans for action which will be considered at the conference to be held in conjunction with the grain exhibition in the capital city next year.

## Nothing In Report

Great Britain Not Sending Debits Mission To United States

London, England.—Reports in a newspaper that Great Britain plans to send a debt mission to the United States soon were denied in authoritative quarters.

The next developments in the debt situation, it was explained, may be expected after an exchange of views through diplomatic channels which may take weeks.

It was pointed out that the debt negotiations eventually will become a part of the projected world economic conference or will be carried on parallel to that meeting.

## RAILWAY MEN ASK ADJUSTMENT OF EMPLOYMENT

Toronto, Ont.—A petition has been forwarded to Earl Bessborough, Governor-General, on behalf of some 60,000 railway engineers and firemen and 14,000 conductors, brakemen and others pleading for readjustment of hours of employment so that there will be a more equitable distribution of work on the railways.

The petition was sent by E. J. Weidman, K.C., of Toronto, for the Canadian Re-employment Railwaymen's Association which has branches in many centres in Canada and which declares approximately half the railway employees in Canada are out of work. It is pointed out some employees work as much as 60 hours a week.

One hundred miles, in freight service, is considered equivalent to an eight-hour day. It is requested employment on railways be restricted to 26 work days a month.

As the Canadian people own the Canadian National, and because the government "has great influence with the Canadian people," it is urged immediate steps be taken to revise the hours of labor. It is suggested His Excellency ask the C.P.R. to adopt the plan outlined and if unable to proceed by private negotiation to proceed under the Industrial Disputes Act.

## MONROE PUTS HIS HOUSE IN ORDER

M. Boncour, the new Prime Minister of France, was caught by our photographer, leaving the Elysee, Paris, after forming the Cabinet which was accepted by the Chamber of Deputies after M. Herriot had resigned and M. Chaumette had failed to form a government.

## KING CELEBRATES

King Alexander of Yugoslavia may be harassed by various sections of his country, but the nation united this month to share with him in festivities on his birthday. Even in London, where arrivals were held in the Hussini Church to celebrate the happy anniversary.

## Heirs Claim Estate

Seven Persons Bring Suit Against University Of Alberta

Calgary, Alberta.—Governors of the University of Alberta have been asked to defend in a suit instituted by seven persons resident in England to recover an Alberta estate awarded the University under the Ultimate Heirs Act.

The plaintiffs are Ellen Mackley, William E. Birrell, Arthur Bartlett, Catherine Birrell, Arthur James Birrell, John Birrell and Evelyn Birrell, who claim Henry Birrell, bachelor, who died intestate in December, 1929, was the owner of the estate.

When Henry Birrell died at his home at Del Bonita, Alberta, he left an estate worth \$50,000. Efforts of a trust company, placed in charge, to ascertain whereabouts of relatives failed, and the estate was awarded the university. The plaintiffs claim they were unaware of their brother's death until recently, and now ask the estate be awarded them jointly.

## Debtor-Creditor Legislation

Debt Measures To Come Before Next Session Of Alberta Legislature

Edmonton, Alberta.—Debtor-creditor legislation and unemployment relief measures to be passed on will dominate the programme to be placed before the Alberta legislature provisionally scheduled to open February 2. Premier John Broderick said today every effort was being made to keep the business to a minimum in all departments.

No undue changes in taxation are expected to come before the members although there have been slight readjustments, Premier Broderick, however, declared he would not go as far as the Saskatchewan government in announcing that not a single new tax or increase in present taxes would be introduced.

## Gets Five Years

Calgary, Alberta.—Roman Jugovic, 22-year-old Calgary youth, was sentenced to five years in penitentiary for robbing a bank and was charged with the armed robbery of the Third Street West branch of the Canadian Bank of Commerce.

## China-Japanese Conflict

Estimated Recent Fighting Resulted In Death Of 1700 Chinese Troops

Peking, China.—Marshal Chang Hsiao-Liang informed Japanese authorities in a blunt letter that he refused to accept responsibility for the battle of Shanghai and did not care to have any dealing with the Japanese concerning it.

The marshal served notice on General Kotani Nakamura, Japanese commander in north China, that further communications should be addressed to the Chinese Nationalist Government at Nanking. He placed blame for the Shanghai incident on the Japanese themselves.

Meanwhile it was understood the Chinese were getting ready for another battle in their positions south of Shanghai to which they retreated when the gateway city was captured by the Japanese after heavy fighting.

Chinese officials here estimated the total Chinese military casualties in the Shanghai fighting at 1,700, and they said the civilian casualties were extremely heavy.

One entire battalion of Chinese troops was reported to have been wiped out. Civilian casualties were accounted for by the intense bombardment from land, sea and air.

Chinese officials took precautions to safeguard their vital politics in the area of conflict.

## French Vessel Wrecked

Luxurious Liner "Atlantique" Destroyed By Fire In English Channel

Cherbourg, France.—The luxurious liner "Atlantique" was wrecked by a furious fire in the English Channel while proceeding to Havre for overloading without passengers, with all lives placed at risk.

Latest available figures here showed that 228 persons were aboard of the liner, which arrived here during the night on four rescue vessels. The victims either suffocated at their posts of duty or drowned when a lifeboat was launched.

All those rescued were utterly exhausted when they were brought here. All their possessions had been lost.

The captain of the liner was the last to leave her. He leaped into the sea and was picked up by a small boat from the steamer "Achilles," which, with the "Rush" and the "Ford Castle," brought the survivors to Cherbourg.

Men in the ladder rooms were burned to death, the captain told port authorities, and others were overcome by smoke before they could escape. He explained no wireless distress messages were sent out because the operator was asphyxiated at his post.

## DE VALERA TO HAVE SUPPORT OF LABOR PARTY

Dublin, Irish Free State.—The Labor party has made a sudden and unexpected decision to support the Republican party of President Eamon de Valera in the general election of January 24.

His decision followed announcement that former President William T. Cosgrave and Frank McDermott, leader of the National Farmers' League, had abandoned attempts to form a national coalition in opposition to the government because there was not sufficient time to complete their plans.

The sudden decision of the Laborites was taken as an indication they had patched up their differences with Mr. de Valera over relations in the pay of postal workers.

After a party meeting, William Norton, Labor leader and secretary of the Post Office Workers' Union, said his party was proud of the stand President de Valera had taken on the national question.

He said his party believed the economic and political development of the country depended on maintaining the nation's "rights" and "meeting and beating external aggression, whether military or economic." This was a reference to the tariff war with the United Kingdom, which was started by refusal of Mr. de Valera's government to pay land annuities to the Bank of England.

Nominations of some 200 candidates for the seats in the dail is expected to be completed soon. The government will have 98 candidates in the dail, the Labor party 100, the National Farmers' Union about 30, and Independents about 20.

## SUDDEN DEATH OF CALVIN COOLIDGE CAME AS SHOCK

Northampton, Mass.—Calvin Coolidge, 39th president of the United States, died suddenly January 30. He was 60 years old on July 4.

Returning from a shopping tour, Mrs. Coolidge found the body of her husband on the bed in a room at the Beeches, the estate to which he retired at the conclusion of his career at the national capital.

His death was wholly unexpected, although for the past three weeks Mr. Coolidge had complained of indigestion. Doctors said death was due to heart failure.

Born in a little house which is now the general store at Plymouth, Vt., Coolidge had made this city his home since his graduation from Amherst college in 1885.

Retirement from the presidency brought few changes to Mr. Coolidge's mode of life. While, with the exception of two addresses delivered on behalf of Mr. Hoover in the recent campaign he eschewed direct politics, he did write numerous magazine articles on political or semi-political subjects. Born and reared on a Vermont farm, Calvin Coolidge was destined to go by successive steps to the highest and mightiest office of a great nation, to administer its affairs for six years and to terminate his presidential career; virtually of his own volition.

Heading the procession upon the death of Warren G. Harding in 1923, Vice-President Coolidge was confronted with problems of rehabilitation of the world and the nation after the depression of 1921, and almost at once the country was shaken by the scandals which were revealed in the naval oil leases, the justice department and the office of the custodian of its public property.

As early as the spring of 1927 there was widespread opinion that if Mr. Coolidge wished to be elected he had only to indicate it. By his own confession, this view was shared by Mr. Coolidge himself, regardless of the popular tradition that a president must retire after his second term. The nation was startled when on August 2, 1927, the president issued his famous statement: "I do not choose to run for president in 1928."

## All For Peace

Prominent Quakers In England Strong For Disarmament

London, Eng.—Following to pay tribute to war chest, Miss E. N. Kitching, a prominent Quaker worker, has sent the British Indian revenue authorities a cheque for about half the amount of a income tax which she was assessed.

In an accompanying letter she declared to pay the balance, alleging "it goes to the support of the war." Miss Kitching said today: "It would ill become a missionary in the cause of peace to pay tribute to war chests. Officers of the India Revenue and to bear or commit me to prison. If tens of thousands of people would take such a course disarmament would speedily come about at Geneva."

## Directors Are Elected

Canadian Aberdeen-Angus Association Chooses Officers For 1933

Winnipeg, Man.—Directors of the Canadian Aberdeen-Angus association for 1933, elected by mail ballot, are announced by Secretary W. Crawford as follows:

Manitoba—Harry Leader, Portage; John Hume, Souris; Saskatchewan—W. J. F. Warren, Ballock; W. D. Lyon, Devon; Alberta and British Columbia—J. H. Armstrong, Lacombe; Alberta; E. Ward Jones, Calgary; Roy Hadden, Wetaskiwin, Alberta.

The annual meeting of the association will be held at Calgary, March 28.

## Form Of Address

Blanchard N.L. will be called as to whether members of the legislature should address the woman speaker of the House as Mr. Speaker, Mrs. Speaker or Madam Speaker, as it is a puzzle no longer. Mrs. Mins Craig, newly elected Speaker, declined she liked "Madame Speaker" best.

## Joins Radicals' Point

Calgary, Alberta.—W. B. Friend, instructor in science and physics at Mount Royal College has gone to Port Hope, Ont. to join the staff of the new radium plant there.

## Local & General

Mr. Goodman, who has been convalescing at his home in Champion, returned to the Keith Sanitarium in Calgary recently.

Mrs. Barker left last week for Newport, Washington, where she will spend a few weeks visiting relatives.

The annual school meeting will be held on Saturday, January 14. It is hoped that a good crowd will respond.

Mr. W. Harris recently purchased a house and garage from L. J. Adams.

Friday, January 27th. Keep this date in mind. Len Davis will be here for a big Scotch Jamboree and Dance. Watch for advertising later.

Mr. and Mrs. W. J. Dodd of Olds, who have been visiting Mrs. Dodd's sister, Mrs. Roy Hummon, have returned to their home.

Mrs. H. T. Lamont attended the funeral of the late Mrs. Mahon held in Taber recently.

Born—To Mr. and Mrs. Jack Taylor, on Wednesday, January 4, a son.

Died—Friday, January 6, the infant son of Mr. and Mrs. Jack Taylor.

## Christmas Concert

Whatever the sacrifices that were made in the production of the Christmas Concert, and there were many, were more than justified by the result, as the huge audience that filled the Community Hall on Friday evening was unanimous in the decision that no more delightful evening had ever been provided an audience in Champion. The different numbers were greeted enthusiastically and any attempt to praise these individually would involve practically a repetition of the programme. Details such as costumes and scenery showed ability and taste in selection that helped wonderfully in the successful issue. The assistance received from the orchestra was greatly appreciated.

The teachers of the Champion Consolidated School are to be congratulated on giving the community an opportunity to hear and see the children at their best.

(Due to an error this write-up was omitted from last week's issue)

## In Memoriam

Brett—in loving memory of our dear son and brother, Martin Brett, who died January 2, 1929.

Not just today but every day. In silence we remember.

Thy will be done.

Inserted by Mr. and Mrs. Brett and family.

There was a day when a Dollar looked as small as this:  
Nowadays, when one gets to this office it looks bigger than this:

\$

Everyone is reaching for the elusive dollar these days and they do not stay long in one place.

If anyone could find an excuse for paying us an odd dollar we could assure them it would contain changing owners rapidly as far as we are concerned, and would be a source of great joy to some pressing creditors we have acquired.

## Children Need the VITAMINES in WAMPOLE'S EXTRACT OF COD LIVER

Vitamines—that mysterious "something"—which makes the young grow—will be found in Wampole's Extract of Cod Liver, as well as other elements necessary for the development of health and strength. Children who seem to be at a standstill—lacking in energy or vitality—and convalescents who do not improve readily, get just the needed tonic stimulant effect from a short treatment with Wampole's Extract of Cod Liver.
